CUMBERLAND ADDITIVE INC. RELOCATES AND EXPANDS HEADQUARTER OPERATIONS IN PFLUGERVILLE AND WILL ADD 27 FULL-TIME JOBS

PFLUGERVILLE, Texas (January 13, 2022) — The Pflugerville City Council approved an economic development performance agreement (EDPA) between the Pflugerville Community Development Corporation (PCDC) Board of Directors and Cumberland Additive Inc. (Cumberland), an additive manufacturing company headquartered in Pflugerville, during the city council regular meeting January 11. The agreement, previously approved by the PCDC board on December 15, offers up to \$300,000 in grants based on Cumberland investing \$9.6MM, expanding into a 36,000-square-foot facility in the One Thirty Business Park, and employing a total of 46 full-time primary jobs over the five-year term.

“Cumberland is a highly recognized international leader in additive manufacturing research and development. Since 2009, this company and its affiliates have consistently created and produced parts for aerospace and other types of manufacturing companies in Pflugerville. This investment by the PCDC helps Cumberland expand into new target markets in the defense and medical industries and provide new employment opportunities for our community,” said Amy Madison, PCDC Executive Director.

Cumberland is relocating all corporate operations from a 27,000-sf facility at 1007 S. Heatherwilde Boulevard in Pflugerville to the new location at 3813 Helios Way in Pflugerville. Besides accommodating the corporate headquarters, the project will expand Cumberland’s current operations which offer series production of parts and engineering design services in both metals and polymer materials using Powder Bed Fusion technology.

As part of the five-year EDPA, the PCDC will grant up to \$300,000 providing that Cumberland invests \$9.6MM over the five-year term and is contingent on job creation. In year one, to receive a relocation grant of \$100,000, Cumberland must relocate 19 jobs and create six new full-time jobs. To receive up to \$75,000 annually in years two and three, Cumberland must create a total of 9 new full-time jobs during the period. In years four and five, the company is eligible for \$25,000 annually, but create a total of 12 new full-time jobs during the period, bringing the total jobs to 46 within the five-year term.

John Jenkins, President, said “Cumberland Additive is excited to expand our operations in Pflugerville as we continue to ignite our partnerships with local space and energy companies, universities and PCDC. The expansion provides us with the opportunity to take advantage of the local additive manufacturing cluster, strong workforce and well positions our company to capitalize on executing our growth plan.”

In addition to the jobs grant from PCDC, Cumberland will assist PCDC to obtain development funds and workforce grants to provide the community with training opportunities in additive manufacturing. In 2021, Cumberland partnered with PCDC for a free 40-hour training program designed to provide an overview of additive manufacturing and training on state-of-the-art equipment owned by local Pflugerville manufacturers.

About Cumberland Additive

Founded in 2006, Cumberland Additive is an industry leader in additive manufacturing, providing repeatable quality, fast turn, serial production, and high-volume customized precision parts that meet critical requirements for companies in the aerospace, defense, space, and energy markets. Cumberland provides engineering services and product development assisting with design for additive manufacturing, specific testing and part qualification in metals and polymers. Cumberland is an AS9100 and ITAR accredited business with headquarters located in Pflugerville, TX and a second facility located in Pittsburgh, PA. For more information, visit www.cai-3d.com.

About the Pflugerville Community Development Corporation

Pflugerville, Texas, is one of the fastest growing cities in the nation, according to U.S. Census Bureau. With a population of more than 74,000, Pflugerville is located just minutes north of downtown Austin in the desirable Central Texas region. State highways 45 and 130 and Interstate Highway 35 offer direct access to other nearby cities and a quick route to nearby airports. Hometown pride and quality of life are top priority, with residents enjoying the beautiful Lake Pflugerville, an elaborate trail system, shopping areas, new restaurants, and the community’s many parades and festivals.

PCDC is responsible for attracting, retaining and expanding businesses to create new jobs and increase tax revenue to support community development. PCDC can provide funding for use as an incentive for companies locating and growing in Pflugerville. PCDC funds, which are 4B money generated from a half-cent of the city’s sales tax revenue, can also be used to construct needed infrastructure such as roads, utilities and drainage, as well as development of parks and recreation projects.
